*We create the foundations of your home,
to inspire the stories of your life.*

For the past 25 years, we have been creating timeless furniture and accessories manufactured from quality materials. True to our values, we have maintained our goal to produce good design, distinguished by authenticity, simplicity and quality, as well as creativity and innovation. We rely on our unique expertise to create singular designs ready to embellish your daily life durably. We create collections for every room of the house: from the furniture that defines the purpose of a space to the objects that layer it with meaning. Nothing excites us more than seeing how people love and use our products in the story of their lives.

All of our designs are intentionally timeless. They withstand trends and associate well with different styles, and they can be passed on from one home to the next, carrying over the stories of one lifetime into another.

ICON YOU MIGHT COME ACROSS
IN OUR PRODUCT CATALOGUE

100 % SOLID WOOD
The items marked with this icon are 100% made out
of solid wood.

BOK OUTDOOR DINING CHAIR

Designed by Alain van Havre

A signature Ethnicraft design, Alain van Havre's iconic Bok dining chair now makes its way into the open air! Bring structural elegance and contemporary craftsmanship to your outdoor lifestyle.

“The Bok collection is centred around organic wooden forms that bring us closer to nature. Curves and more natural lines that reflect our environment. Forms which are familiar to us.”

- Alain van Havre, designer.

BOK OUTDOOR DINING TABLE

Designed by Alain van Havre

Just like its matching chair, the Bok dining table is another signature design. Its airy shape yet rock solid construction make this piece a timeless and remarkable design to enjoy for all the years to come.

EX1 OUTDOOR DINING CHAIR

Designed by Alain van Havre

A popular interior favorite, the EX 1 dining chair is a timeless design, to add effortless stability to your outdoor seating needs.

CIRCLE OUTDOOR DINING TABLE

Designed by Alain van Havre

Our Circle dining table is all about inspiring your loved ones to spend a little more time at the table. Its solid legs intertwine in perfect balance, while the adapted grooved design makes outdoor life a simple pleasure.

MOCHA UPHOLSTERY FABRIC

OFF WHITE UPHOLSTERY FABRIC

JACK OUTDOOR SOFA

Designed by Jacques Deneef

Beautiful from every angle, luxuriant shapes and curves form the basis of the Jack sofa collection. Featuring upholstery woven in Belgium, every detail has been meticulously crafted to ensure comfort and elegance when enjoying the outdoors.

OUR PHILOSOPHY

TIMELESS DESIGN

All our designs are intentionally timeless. They withstand trends and associate well with different styles, and they can be passed on from one home to the next, carrying over the stories of one lifetime into another. Our collections go back to the essence of what we believe is good design: pieces full of character, made from quality materials that age beautifully. We love that solid wood evolves with the years as it carries the marks of the life that happens to it.

DEVOTION

We create collections for every space of your home: from the furniture that defines the purpose of an area, to the objects that layer it with meaning. Nothing excites us more than seeing how people love and use our products in the stories of their life.

CRAFTSMANSHIP

Outstanding craftsmanship is at the core of our brand, and behind the simplicity of our pieces lies a constant drive for innovation. Incorporating advanced techniques to our process of creation, each new design is revised and reworked to the last detail: every curve, texture and line reflects our design values.

*We create the foundations of your home,
to inspire the stories of your life.*

HOW TO TAKE CARE OF OUR OUTDOOR PRODUCTS

Ethnicraft's outdoor collection is designed to adapt well to a range of environmental conditions, whether that be on an urban terrace or beachfront patio; warm and tropical or cool and mountainous. As the furniture adapts to its environment, it is normal for some cracking and movement to occur.

The beauty of teak is that, even when left in its natural state, outdoors and in any season, it is basically maintenance-free. Our teak range comes without any finish or protective treatment. The wood is merely polished, allowing the natural oils to rise to the surface. The high density of teak wood means it is an excellent choice for outdoor use.

Overtime, it is natural for untreated furniture to grey slightly due to prolonged sun and rain exposure. This color change is purely superficial and does not impact the strength or quality of the timber.

Due to the handcrafted nature of our products, each item will vary slightly. We consider this a sign of uniqueness and quality.

Regular care

Teak's high density has the advantage that stains do not penetrate the wood as easily. Even with these characteristics, any spills should be removed immediately.

Use placemats and/or coasters to prevent hot pots and pans, or cold glasses and bottles, from leaving marks on the furniture.

For regular wiping, use a dry cloth or soft brush for dusting off crumbs and leaves – do not rub. For cleaning, or in case of a spill, use a damp cloth and natural soap. Wipe in the direction of the grain. Do not use soap containing detergent or other chemicals. Dry with a soft clean cloth to prevent spotting.

With teak's natural oils rising to the surface, it can appear as irregular coloring or appear like a watermark. This is not a flaw, but a natural part of the timber's maturing. Use a damp cloth and natural soap to clean.

After any cleaning, ensure that furniture is dried thoroughly as spores that result in mold growth thrive in prolonged damp and dirty conditions.

Avoid letting water rest on any furniture surfaces for periods of time as permanent water damage can occur on wood, fabric or metal.

All teak items are equipped with glides to prevent water absorption from the ground. As well as preserving the furniture's feet, glides protect ground surfaces from scratches. Important! To prevent warping, before using a sofa with 5 or 6 legs, always adapt the adjustable glides of the middle legs to the ground surface. For stability, middle legs need to be slightly shorter.

Always ensure solutions used to clean paving, patios or terraces do not come into contact with the furniture, as it might leave permanent marks on surfaces. Some wood species contain tannin, which causes the wood to react with metal and leave permanent stains.

Avoid close exposure to heating sources such as outdoor fires, braziers and heaters.

Thorough care

To keep your Ethnicraft outdoor furniture in optimal condition we suggest fitting a custom rain cover during seasons where it is not in use or periods of bad weather. Ensure the furniture is thoroughly clean and dry before applying the cover protection. For long periods of time we recommend that, if possible, any soft furnishings, cushions etc should be removed and stored indoors.

To remove stubborn stains or superficial scratches to teak surfaces, extra fine sandpaper can be gently used. Always sand in the direction of the wood grain.

Outdoor upholstery & fabrics

Woven in Belgium, Ethnicraft outdoor fabrics are 100% polypropylene, a synthetic material. Polypropylene by its nature is water-repellent, stain-proof, resistant to mould, moths and bacteria like no other synthetic or natural fibre. It is also:

- UV resistant.
- Resistant to the action of acids and alkalis.
- Resistant to humidity and, although not completely waterproof, it does not absorb water and is quick-drying.
- Maintenance friendly - easily cleaned with clear water and a natural soap. Covers are machine washable up to 40°C. Do not use any chemical products not designed for polyester.

CUSHIONS

All sit cushions are equipped with an anti-slip fabric on the bottom to ensure cushions remain in the correct position.

The naturally occurring surface oil in teak can cause stains on cushions. To clean, use a damp white cloth, natural soap and clear water. Please note, natural oil transfer from wood to fabric is a recurring process that cannot be prevented.

All cushions are inserted with a long lasting, quick dry foam. This dries quickly after exposure to rain, ocean spray, melting snow, morning dew, or moisture and humidity which can penetrate even a “water repellent” outer shell over a period of time.

OUR COMMITMENT

Wood has always been the core material in the Ethnicraft range. We are deeply aware of the impact of our industry on the environment and we take environmental issues to heart: the origin of the wood, the energy we use in the production and distribution process, the treatment of the products and waste reduction – we try to be as environmentally friendly as possible.

THE ORIGIN OF OUR CORE MATERIAL

Ethnicraft works closely together with the Indonesian governmental body in charge of managing the teak plantations originally set up by the Dutch about 150 years ago. This government agency applies strict policies with regard to annual replanting and the size and quantity of trees that can be felled each year. Where our oak and walnut is concerned: we source oak from well-managed forests in Europe and use black American walnut for our designs.

NO WASTE

Production waste such as leftover logs, wood and sawdust are re-used for other purposes. The sawdust from logs is either used as fuel for the drying ovens or compressed as a base for pellets. All the leftovers from cutting planks to size are recycled and used as base material or as box joints for panels.

The ultimate noble and renewable material, our wood is sourced from responsibly and carefully managed forests.

FSC® LABEL FOR OUR OUR DISTRIBUTION CENTERS

Our commitment to the environment is reflected by the FSC® CoC (Chain of Custody) certification of our distribution centers. FSC® is a worldwide independent, non-governmental, non-profit organisation that promotes responsible management of the world’s forests. In other words, this organisation guarantees that products carrying the FSC® label come from forests that are managed so that they meet the social, economic and ecological needs of present and future generations. In the case of Ethnicraft NV and Azur, the CoC certificate guarantees that the company is perfectly placed to buy, stock and sell products with a specified FSC® certificate, originating from sustainably managed forests, controlled sources and reclaimed materials, or a mixture of these. Other collections carry the FSC® 100% label, which means that these products are made from wood originating from FSC® certified plantations. These ranges are clearly indicated in the catalogue. Moreover, every effort is being made to increase the number of ranges with an FSC® label.
